

Special Issue on Genetic Aspects of Human Diversity

Call For Papers

A new Special Issue *Genetic Aspects of Human Diversity* (<http://www.ijgene.org/sinfo/116007>) has been launched in *International Journal of Genetics and Genomics* (<http://www.ijgene.org>). This Special Issue intends to collect research achievements concerning Genetic Origins. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Maryna Kornieieva

Affiliation: Department of Histology, Anatomy, and Embryology, AUC Medical School, Lowlands, Netherlands

Paper Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via <http://www.ijgene.org/submission>

Topics of Interest Include (but not limited to):

- ◆ Molecular mechanisms of regulation of systemic embryogenesis
- ◆ Overview of regulatory factors involved
- ◆ Variability of expression of regulatory factors and ensuing developmental patterns
- ◆ Prerequisites of evolution
- ◆ Mutations, recombination, and other genome changes that may alter the developmental patterns
- ◆ Genetic consideration of rare anatomic case reports
- ◆ As a consequence, diapason of normal anatomic variability and marginal forms

Important Dates

Submission Deadline: **Apr. 15, 2020**

Publication Deadline: **Jun. 15, 2020**

Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
